(54) Title: MOBILE DEVICE THAT USES REMOVABLE MEDIUM FOR PLAYBACK OF CONTENT

(57) Abstract: A system for providing playback of media content to a user. The system comprises a portable wireless device, where the wireless device has a media drive and an application that reads content from a medium inserted in the media drive. The system further comprises a service that communicates with the wireless device via a wireless network. The service provides control commands to the application program for controlling playback of content from the medium when inserted in the media drive.
